About Me

Multidisciplinary Designer who can perform UI/UX Design, Product Design, Visual Communication, Motion Graphics, Video Production, and Marketing Design. Developed a multidisciplinary career by making a jump from Fire & Safety Services to Design through self-teaching and hands-on experiences in environments ranging from FinTech and B2B to EdTech and Supply Chain SaaS. Adept at collaborating with product, engineering, marketing, sales, and business teams to design digital experiences, communication materials and customer-facing products. Believes that design should be simple, communication should be clear, and complex problems should be translated into practical user experiences.

Work Experience

UI/UX & Motion Designer | Pull Logic Software Solutions Pvt Ltd | Jan 2026 – Present

- Sole designer supporting product, marketing, sales, and customer-facing initiatives across the organization.
- Helping in designing the software supply chain product (user-flow, user interface, product communication) and related assets.
- Working on investor presentations, whitepapers, datasheets, brochures, sales collateral, website assets, and marketing material.
- Creating webinar creatives, client testimonial videos, product demo videos, digital campaign assets.
- Partnering with engineering and marketing teams to maintain consistency across product and brand communication.

UI/UX & Motion Designer | WealthyIN | Bengaluru | Mar 2023 – Dec 2025

- Worked on web and mobile interfaces for stock broking and mutual fund investment platforms.
- Conceptualized and designed user flows, wireframes, prototypes, and UI components that enabled product development.
- Designed and developed landing pages, marketing creatives and communication assets for marketing campaigns.
- Produced podcasts and client-facing video content, from planning and production management to editing and post-production.
- Created various educational and promotional videos, driving engagement and brand communication.
- Partnered with product, business, marketing, and development teams to drive unified user and brand experience.

Senior Graphics & UI/UX Designer | ATS Share Brokers Pvt Ltd | Bengaluru Feb 2021 – Feb 2023

- Managed UI/UX projects across stock trading, mutual fund, insurance, and B2B financial products.
- Created user journeys, wireframes, prototypes, and interface systems from start to finish on web and mobile applications.
- Involved in products like Pocket Trading Platform, Clearcover Corporate Insurance Platform and Capital Bridge B2B solutions.
- Enhanced usability through user research, competitor analysis, and workflow planning.
- Worked closely with the business stakeholders and development team to translate their requirements into working product experiences.
- Reviewed and helped with the design implementation for a high-quality product across the SDLC.

Motion & Graphic Designer | CADD Centre Training Services Pvt Ltd | Chennai Mar 2019 – Feb 2021

- Produced educational videos, motion graphics and visual assets for CloudKampus, an online learning platform.
- Created social media campaigns, promotional content and marketing creative for training programs and events.
- Collaborated with marketing teams to create engaging digital content.
- Managed video editing, animation and post-production workflow for educational and promotional content.
- Assisted brand communication campaigns with visual storytelling and multimedia content creation.

Lead Video Production & Graphics Designer | IndiaFilings Pvt Ltd | Chennai Nov 2018 – Feb 2019

- Created product marketing collaterals, website creatives, social media creatives, banners & promotional materials.
- Developed product demo videos and digital marketing collateral for business and compliance services.
- Managed complete video production workflow from concept to final published product, including planning, shooting, editing, and publishing.
- Created UI mockups, illustrations and visual assets for product and marketing support.
- Collaborated on creative needs across teams and mentored intern designers on design execution.
- Enhanced visual communication across multiple digital platforms to improve the company's digital presence.
